ABSTRACT

The Saskatchewan Institute of Applied Science and Technology (Canada) surveyed 3,006 students who graduated from its 4 institutes and its extension programs in 1995 to determine their employment status, the relationship between their employment and their education, and their overall evaluation of the training they received. Responses were received from 1,869 graduates, including 1,558 from on-campus programs and 311 from off-campus extension programs. Major findings include the following: (1) 81% of the respondents were employed, 12% were unemployed, and 7% were not in the labor force; (2) 78% of employed respondents were in occupations related to their training and 79% of them were working full-time; (3) for graduates of on-campus programs, the average salary for respondents in full-time jobs related to their training was \$1,833, while for extension graduates it was \$1,659; (4) 62% of the on-campus respondents who were not working had worked at some time since completing their training, compared to 57% of the off-campus graduates; (5) 99% of all respondents rated the overall program quality as good to excellent, while 94% indicated that the training had met their expectations; and (6) 92% of employed respondents were working in Saskatchewan. Appendixes include the overall survey results, a list of off-campus programs included in the survey, a description of program changes from 1993-94 to 1994-95, and the survey instrument. (TGI)

Acknowledgements

Saskatchewan Post-Secondary Education and Skills Training and the Saskatchewan Institute of Applied Science and Technology (SIAST) would like to thank those graduates who responded to the Graduate Employment Survey. Appreciation is also extended to the many readers of previous years' **Employment Statistics Report** who provided valuable comments.

Executive Summary

The major findings of the 1995 Graduate Employment Survey are as follows:

- 3,006 graduates from 155 training programs offered both on campus and off campus were surveyed. 1,869 graduates responded to the survey for an overall response rate of 62%. On campus graduate response rate was 63% (1,558 of 2,469). Off campus response rate was 58% (311 of 537).
- Average number of employment opportunities on campus respondents applied for was 20. Off campus respondents applied for 8 employment opportunities. The average number of employment interviews respondents participated in was 3 for on campus respondents and 2 for off campus respondents.
- 81% of all respondents were employed at the time of the survey; 12% were unemployed and 7% were not in the labour force. 82% of on campus respondents and 73% of off campus respondents were employed.
- 78% of employed respondents were in training related occupations and 79% of them were working full time. 79% of on campus respondents were in training related occupations and 81% of them full time. 75% of off campus respondents were in training related occupations and 71% of them full time.
- 8% of employed respondents (124) were self employed. 69% of these self employed respondents were in training related occupations and 79% were self employed full time. 73% of on campus and 47% of off campus self employed respondents were in training related occupations. 81% of on campus and 65% of off campus self employed respondents were self employed full time.
- 62% of the on campus respondents who were not working at the time of the survey had worked at some time since completing their training. 57% of the off campus respondents who were not working had worked at some time since completing their training.
- 70% of on campus and 58% of off campus non-working respondents indicated they had returned to school as the reason for not being in the labour force.
- 16% of on campus and 15% of off campus respondents indicated they were enrolled in an education or training program.
- 99% of all respondents rated the overall program quality as good to excellent. 25% rated the quality as excellent. 94% indicated that the training program had met their expectations.
- Average age of on campus respondents was 25.9. Average age of off campus respondents was 28.6.
- 48% of all respondents were male; 52% were female. On campus respondent's gender were both 50%. 38% of off campus respondents were male; 62% were female.
- \$1,833/month was the average salary for respondents in full time, training related employment from on campus programs. \$1,659/month was the average salary for respondents from off campus programs employed in full time training related occupations.
- 9% of all respondents indicated they were persons of Aboriginal ancestry, 3% indicated they were disabled and 6% identified themselves as members of a visible minority.
- 92% of employed respondents were working in Saskatchewan.

Introduction

Beginning with the survey of 1990-91 graduates, the Graduate Employment Survey (formerly the Graduate Follow-Up Survey) became a joint project of Saskatchewan Post-Secondary Education and Skills Training and the Saskatchewan Institute of Applied Science and Technology (SIASST). The survey collects data on a variety of questions related to the graduates' employment status, occupation, industry, location of employment, salary, relationship of training to occupation and general evaluation of training received.

Scope of the Survey

The 1995 Graduate Employment Survey, on which this report is based, collected data on 1994-95 graduates from the four SIASST institutes: Kelsey in Saskatoon, Palliser in Moose Jaw, Wascana in Regina and Woodland in Prince Albert and Meadow Lake. This data is referred to as on campus. Data was also collected from the SIASST programs offered through the Saskatchewan Skills Extension Program (SSEP) at numerous locations throughout the province. This data is referred to as off campus. The table of contents and the start of each program group section contains a listing of programs surveyed. Appendix B lists those programs off campus, the location they were held and the associated institute.

The training programs surveyed included those certificate or diploma programs offered on campus or off campus that lasted twelve weeks or longer. Programs not included in the survey were Apprenticeship, Saskatchewan Skills Development, upgrading, employer-based or other special programs. Also, new programs that had not yet produced graduates were not included. Most graduates completed their program in the spring and were surveyed six months later, in November. There were some differences between programs surveyed this year and those included in the 1994 survey. A description of changes in the programs included in this year's survey as compared to last year's survey, is contained in Appendix C.

Methodology

SIASST institute registrars supplied the lists of graduates with telephone numbers and mailing addresses. SIASST Secretariat contracted two interviewing firms to telephone each graduate and ask them to answer questions following the questionnaire. Those graduates who were unable to be contacted received the questionnaire by mail.

Completed questionnaires were returned to Saskatchewan Post-Secondary Education and Skills Training, who recorded, checked and entered the responses into a computer database. The data was analyzed for each program and summarized in three different ways. Analysis was performed for the total survey population, for those programs offered on campus and for those programs offered off campus. Within the on campus data, analysis was also performed for five program groups: Business, Health, Industrial, Service and Technology.

Response

The Graduate Employment Survey did not use random sample methodology. All program graduates, as defined above, were surveyed and a percentage of this population responded. The results presented here are based on those respondents. It should be noted that these results relate to the respondents' situation at the time of the survey only.

Purpose of the Survey

The **Employment Statistics Report** provides information on graduates of training programs not readily available elsewhere. It is used by career counsellors and students in selecting programs of study. Those planning future training or studying changes in labour market conditions also find the information useful. Please note that the survey results presented in this report are only one source of information about SIASST's training programs. They should be considered within the context of a variety of factors that affect graduates' employment and assessment of training.

Report Format

The **Employment Statistics Report** presents the findings of the 1995 Graduate Employment Survey in two main sections: Overview of Results and Program Statistics. Appendices provide supplemental information.

The Overview of Results summarizes the survey results with text, tables and graphs. Areas examined are: Response Rate, Employment Status, Continuing Education, Program Assessment, Demographics and Location of Employment. Results are presented as an overall total, on campus total and off campus total. On campus results are further broken down into five program groups: Business, Health, Industrial, Service and Technology.

The Program Statistics section outlines the survey results for individual training programs, grouped into the five program groups. Off campus programs are also included and can be distinguished from the On Campus programs by the location. Each program is reported on a single page and includes information on the response rate, employment status, description of employer, historical information and program specific notes.

Overview of Results

Response Rate

The 1995 Graduate Employment Survey was sent to 3,006 graduates from 155 training programs. 1,869 graduates responded for an overall response rate of 62% (Table 1).

The graduates surveyed included those attending the four institutes and those attending SIAST programs off campus. The overall response rate for those graduates attending the institutes was 63%. For graduates off campus the overall response rate was 58%.

The 108 programs offered at the institutes (on campus) were further grouped into five categories: Business, Health, Industrial, Service, and Technology. Health had the highest response rates at 72%. All program groups had a response rate of greater than 55%.

Table 1: Survey Response Rate

Program Group	Programs	Graduates	Respondents	Response Rate %
Business	11	483	294	60.9
Health	16	606	436	71.9
Industrial	35	628	360	57.3
Service	22	401	228	56.9
Technology	24	351	240	68.4
On Campus	108	2,469	1,558	63.1
Off Campus	47	537	311	57.9
Total	155	3,006	1,869	62.2

Employment Status

The survey asked graduates for the number of employment opportunities they applied for and the number of employment interviews they participated in. Table 2 shows the average number of opportunities and interviews the respondents had.

On average, Business group respondents applied for the largest number of employment opportunities (37) and participated in the most interviews (3). Industry and Technology respondents on average participated in 3 interviews. Service respondents on average applied to the lowest number of employment opportunities (7). Health and Service respondents participated in the lowest number of interviews (2).

Off campus graduates responding applied on average for 8 employment opportunities compared to 20 employment opportunities for responding on campus graduates.

In comparing the Full Time/Training Related to the Unemployed responses, it can be seen that the unemployed respondents apply on average for a greater number of employment opportunities (30). Those graduates responding who were employed Full Time in a Training Related occupation had applied on average for 14 employment opportunities and had participated on average in 3 employment interviews.

Table 2: Average Number of Employment Opportunities Applied For and Average Number of Employment Interviews Participated In

Program Group	Average Number of Employment Opportunities Applied For	Average Number of Employment Interviews Participated In
Business	37	5
Health	17	2
Industrial	11	3
Service	7	2
Technology	27	3
On Campus	20	3
Off Campus	8	2
Total	18	3
Total Full Time/Training Related Employment	14	3
Total Unemployed	30	3

Of the 1,869 survey respondents, 1,512 (81%) were employed at the time of the survey (Table 3 and Figure 1). This includes those graduates employed full time, part time or who were self employed in either training or non-training related occupations. 82% of graduates from programs offered at the institutes were employed. 73% of off campus graduates were employed. Of those graduates on campus, the Health program group had the highest overall employment rate at 86%. All of the program groups had employment rates greater than 75%.

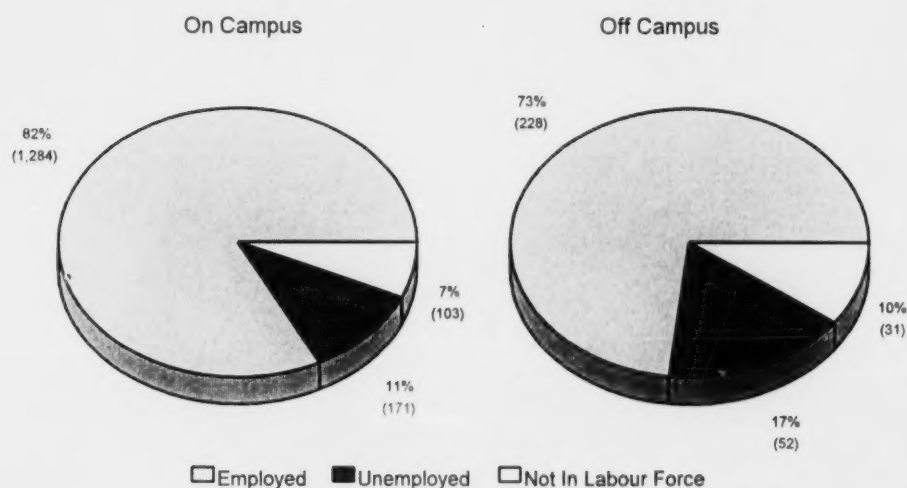

Overall 223 survey respondents (12%) were unemployed, that is, not employed but looking for work. On campus unemployment was 11%. Off campus unemployment was 17%. Of the on campus graduates, Technology had the highest percentage of unemployed respondents at 13%, while Service had the lowest at 8%.

134 respondents (7%) were not in the labour force, that is, neither employed nor looking for employment. 10% of off campus and 7% of on campus respondents were not in the labour force. With respect to on campus programs, Service had the highest percentage of respondents not in the labour force (11%).

Table 3: Labour Force Participation Status

Program Group	Employed		Unemployed		Not In Labour Force		Respondents
	#	%	#	%	#	%	#
Business	248	84.4	35	11.9	11	3.7	294
Health	373	85.6	41	9.4	22	5.0	436
Industrial	284	78.9	46	12.8	30	8.3	360
Service	184	80.7	18	7.9	26	11.4	228
Technology	195	81.3	31	12.9	14	5.8	240
On Campus	1,284	82.4	171	11.0	103	6.6	1,558
Off Campus	228	73.3	52	16.7	31	10.0	311
Total	1,512	80.9	223	11.9	134	7.2	1,869

Figure 1 : Labour Force Participation Status

The survey asked graduates for the number of jobs they currently held. Table 4 shows the percentages for responses to jobs currently held. Note there is no distinction in the type of job(s) held. Overall, 80% of all respondents held only 1 job; 20% held more than 1 job.

Graduates of Health programs offered on campus reflected the lowest percentage of people holding only 1 job (63%). 37% of Health graduates had 2 jobs or more; 9% held 3 jobs or more. In comparison, graduates of Technology programs offered on campus reflected the highest percentage of people holding only 1 job (93%). 7% of Technology graduates held 2 or more jobs.

Table: 4: Jobs Currently Held

Program Group	Number of Jobs					Responses #
	1 %	2 %	3 %	4 %	5 %	
Business	86.8	11.9	0.8	0.4	0.0	243
Health	63.4	28.1	6.3	1.9	0.3	366
Industrial	91.3	7.6	1.1	0.0	0.0	277
Service	73.9	23.4	2.2	0.0	0.5	184
Technology	92.7	6.3	1.0	0.0	0.0	192
On Campus	80.0	16.5	2.7	0.6	0.2	1,262
Off Campus	76.4	15.6	5.8	1.8	0.4	225
Total	79.5	16.3	3.2	0.8	0.2	1,487

Of the 1,512 graduates responding who were employed at the time of the survey, 1,186 (78%) were employed

in a training related occupation (Table 5). Training related occupations are those occupations requiring some or all of the skills gained in their training program. Off campus had 75% training related employment. 79% of on campus respondents indicated they were employed in a training related occupation. On campus Service respondents had the highest rate of training related employment with 87% of respondents indicating they were in a training related occupation. Business had the lowest training related employment rate at 71%.

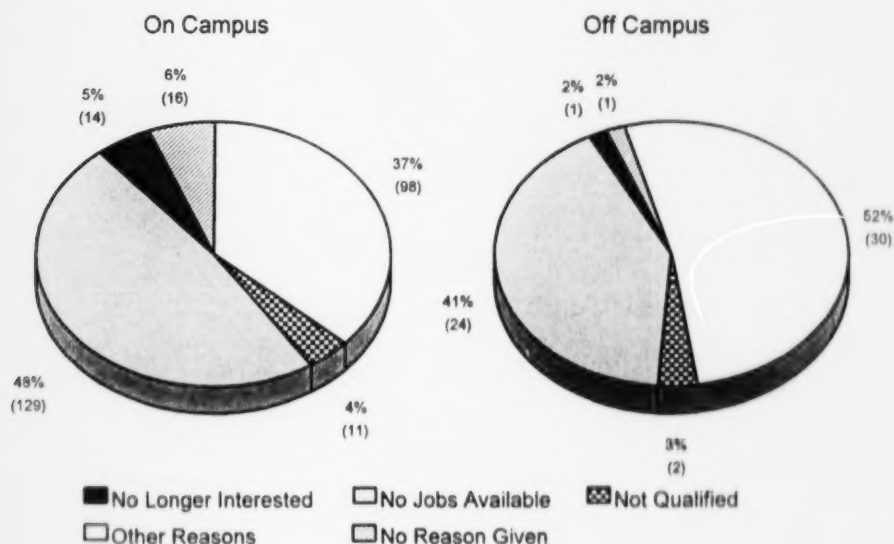

The survey asked graduates employed in training related occupations how many weeks elapsed before they received their first training related job offer. On average 6 weeks had elapsed for both on campus and off campus respondents. For on campus programs, 9 weeks had elapsed before Business graduates received their first training related job offer. 6 weeks had elapsed for Technology and Health graduates. 3 weeks had elapsed for Industrial graduates and 7 weeks for Service graduates.

Table 5: Training and Non-Training Related Employment

Program Group	Training Related		Non Training Related		Total
	#	%	#	%	#
Business	175	70.6	73	29.4	248
Health	295	79.1	78	20.9	373
Industrial	223	78.5	61	21.5	284
Service	160	87.0	24	13.0	184
Technology	163	83.6	32	16.4	195
On Campus	1,016	79.1	268	20.9	1,284
Off Campus	170	74.6	58	25.4	228
Total	1,186	78.4	326	21.6	1,512

The following graph illustrates the reasons respondents were not in a training related occupation. 58% of on campus and 41% of off campus graduates responding indicated that they were not employed in training related occupations due to a **lack of jobs**. 3% of off campus respondents said they were not qualified. 5% of on campus respondents said they were no longer interested. 37% of on and 52% of off campus respondents had other reasons for not being in a training related occupation.

Figure 2 : Reasons for Not Being In A Training Related Occupation

Further analysis of the responses from the 1,186 graduates who were in training related employment results in the following breakdown on the type of employment. Of the overall respondents, 79% were employed full time and 21% were employed part time (Table 6). For off campus respondents, 71% were employed full time and 29% were employed part time. 81% of on campus respondents were employed full time and 19% employed part time.

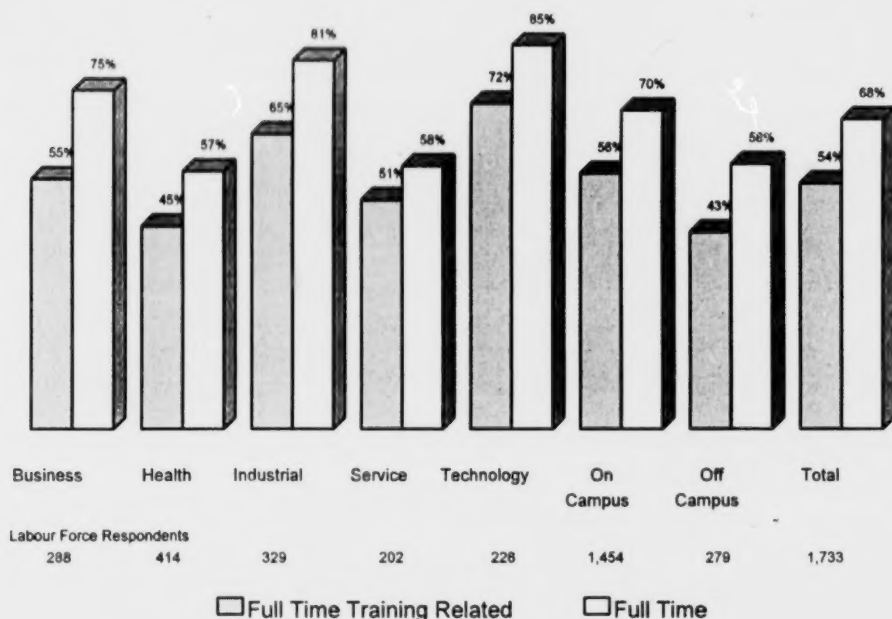

Within the on campus program groups, Technology had the highest rate of full time training related employment at 91%. Health had the lowest rate of full time training related employment (54%) and the highest part time rate (40%). Business, Industrial and Technology had the lowest proportions of part time employment with rates of less than 10%.

Table 6: Training Related Employment: Full Time and Part Time

Program Group	Full Time		Part Time		Total Training Related
	#	%	#	%	#
Business	156	89.1	19	10.9	175
Health	185	62.7	110	37.3	295
Industrial	214	96.0	9	4.0	223
Service	102	63.8	58	36.3	160
Technology	162	99.4	1	0.6	163
On Campus	819	80.6	197	19.4	1,016
Off Campus	121	71.2	49	28.8	170
Total	940	79.3	246	20.7	1,186

Figure 3 expresses the percentage of labour force participants who had found full time employment and full time training related employment. Labour force participants are those respondents who are employed or **actively** looking for employment (unemployed). It does not include those respondents who are not in the labour force (i.e. not looking for employment). For example, of the 283 respondents in the labour force from the on campus Business group, 75% were working full time in either a training related or non-training related occupation. 55% were working full time in only a training related occupation.

Figure 3 : Full Time Employment and Full Time Training Related Employment As A Percentage of Labour Force

The survey asked graduates who were not working full time to specify whether or not this was by choice. 68 on campus respondents (26%) indicated it was by choice; 191 respondents (74%) indicated it was not. 19 off campus respondents (28%) indicated it was by choice; 48 respondents (72%) indicated it was not.

124 survey respondents (8% of total employed) indicated they were self employed (Table 7). 107 respondents were from on campus programs and 17 were from off campus programs. Within the program groups, Industrial had the highest percentage of self employed respondents (13%). Technology had the lowest percentage of self employed respondents (7%).

86 self employed respondents (69% of self employed) indicated their self employment was training related. 47% of off campus self employed respondents indicated training related employment. 73% of on campus self employed respondents indicated training related employment. Within the program groups, Service had 87% of self employed respondents in training related employment. 61% of Industrial self employed respondents indicated training related employment.

79% of all self employed respondents were doing so full time. 81% on campus and 65% off campus self employed respondents were full time. Within the program groups, all of the self employed respondents in Business were full time, whereas only 53% of the Service self employed respondents were employed full time.

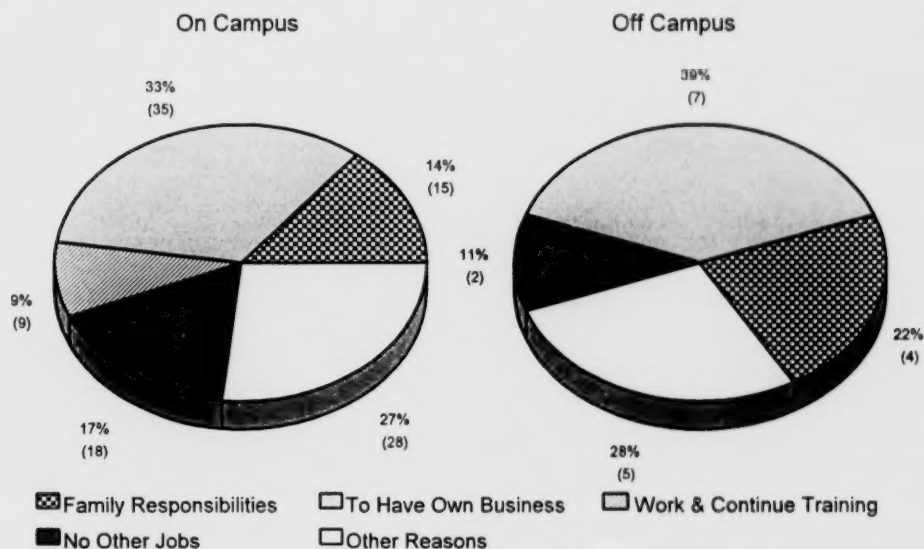

Table 7: Self Employment

Program Group	Total Employed	Self Employed	Self Employed as a % of Total Employed	Training Related Self Employed	Training Related Self Employed as a % of Self Employed	Self Employed Full Time	Self Employed Full Time as a % of Self Employed
Business	248	19	7.7	16	84.2	19	100.0

On Campus	1,284	107	8.3	78	72.9	87	81.3
Off Campus	228	17	7.5	8	47.1	11	64.7
Total	1,512	124	8.2	86	69.4	98	79.0

105 on campus respondents indicated their reasons for being self-employed (Figure 4). 33% indicated they wanted to have their own business, 27% had other reasons, 17% indicated no other jobs available, 14% had family responsibilities and 9% indicated being self employed allowed them to continue training.

18 off campus respondents indicated their reasons for being self-employed. 39% indicated they wanted to have their own business, 22% had family responsibilities, 28% had other reasons and 11% indicated no other jobs available.

Figure 4 : Reasons for Being Self Employed

As shown in Figure 5, 171 on campus respondents not working (62%) indicated they had worked at some time since graduation. Of those 171 respondents, 44% indicated they were scheduled to return to work within the following year. 48 off campus respondents not working (57%) indicated they had worked at some time since graduation. Of those 48 respondents, 48% indicated they were scheduled to return to work within the following year.

Figure 5 : Respondents Not Working Who Have Worked Since Graduation and Are Scheduled to Return to Work

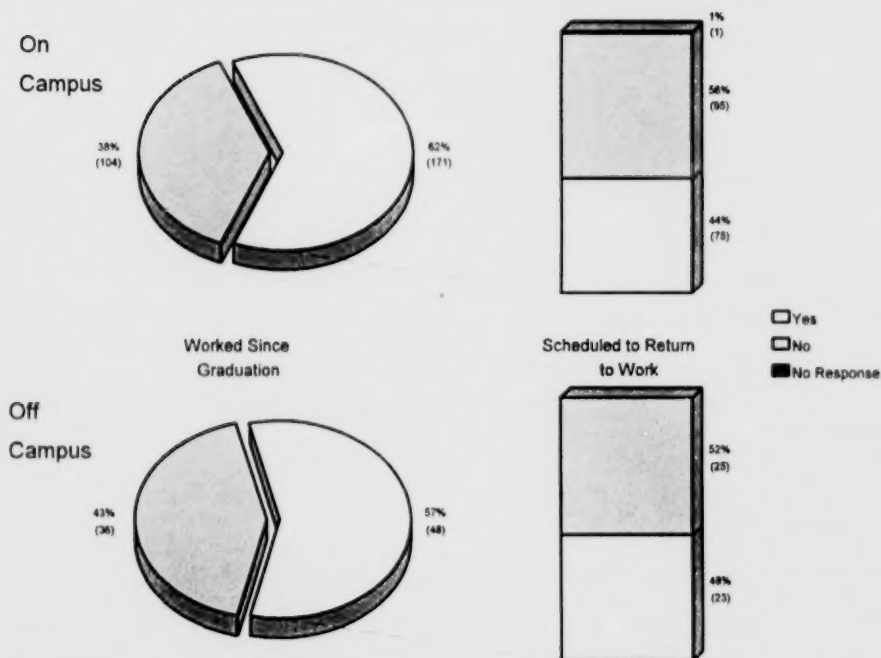

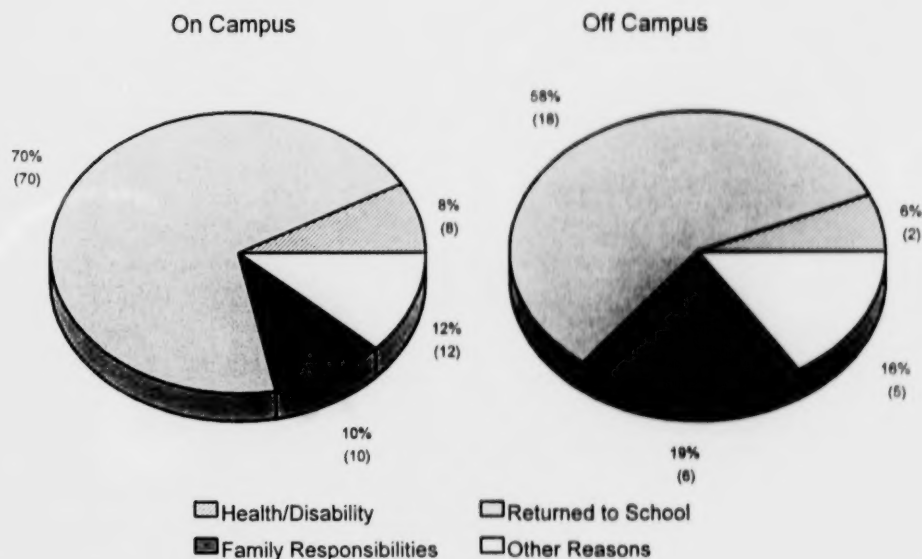

Table 8 illustrates the reasons respondents were not employed. In terms of on campus and off campus respondents, the table lists the reasons in order of magnitude. For both groups not being in the labour force (ie. not looking for employment) was the most frequent reason given (on campus 38%, off campus 38%). For on campus respondents, not enough experience was the second most cited reason (20%). For off campus respondents no jobs in desired location was the second most cited reason given (20%).

Figure 6 illustrates the reasons why graduates responding chose not to be in the labour force, that is, are not looking for work. For on campus respondents, 70% indicated they had returned to school, 10% had family responsibilities, 12% had other reasons and 8% cited health/disability reasons. 58% of off campus respondents indicated that they returned to school, 19% had family responsibilities, 14% had other reasons and 7% had health/disability reasons

Table 8: Reasons for Not Being Employed

	On Campus			Off Campus	
	#	%		#	%
Not In Labour Force	103	37.5	Not In Labour Force	32	38.1

Other Reasons/ No Response	27	9.8	Other Reasons/No Response	7	8.3
Require Further Training	11	4.0	Require Further Training	5	6.0
Employment is Seasonal	7	2.5	Employment is Seasonal	4	4.8
Total	275		Total	84	

Figure 6 : Reasons for Not Being In The Labour Force

A comparison of employment status by gender is illustrated in Figures 7 and 8. Among male respondents, 80% were employed, 13% were unemployed and 6% were not in the labour force. For female respondents, 81% were employed, 11% were unemployed and 8% were not in the labour force.

82% of on campus male respondents were employed. 12% were unemployed and 6% were not in the labour force. 83% of female respondents on campus were employed. 10% were unemployed and 7% were not in the labour force.

69% of off campus male respondents were employed. 24% were unemployed and 7% were not in the labour force. 76% of female respondents off campus were employed and 12% were unemployed or not in the labour force.

Within on campus program groups, the highest rate of employment for male respondents was in the Business group (89%), while the highest rate of employment for female respondents was in the Technology group (90%). 14% of female respondents in the Service group indicated they were no longer in the labour force. 8% of male respondents in the Industrial group also indicated they were no longer in the labour force.

Figure 7 : Labour Force Participation for Male Respondents

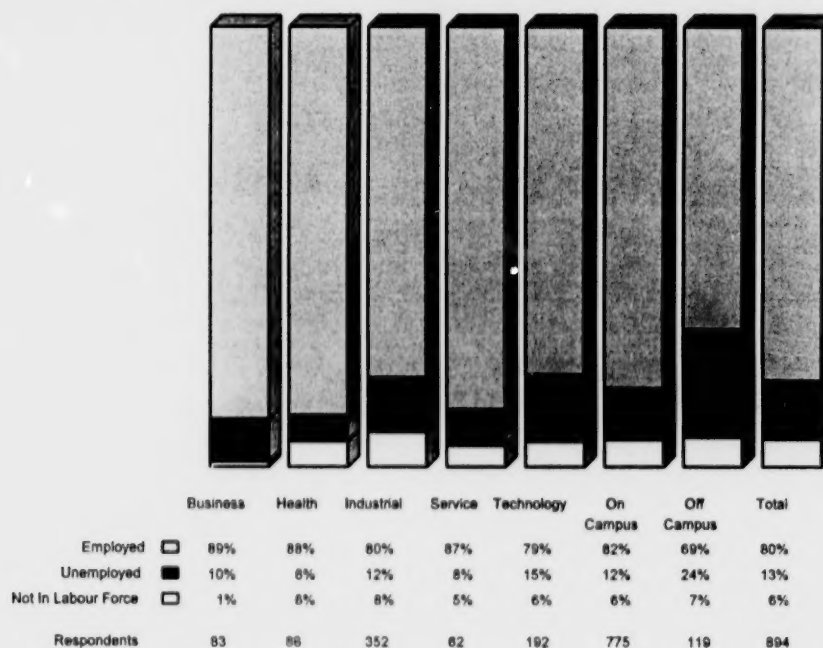

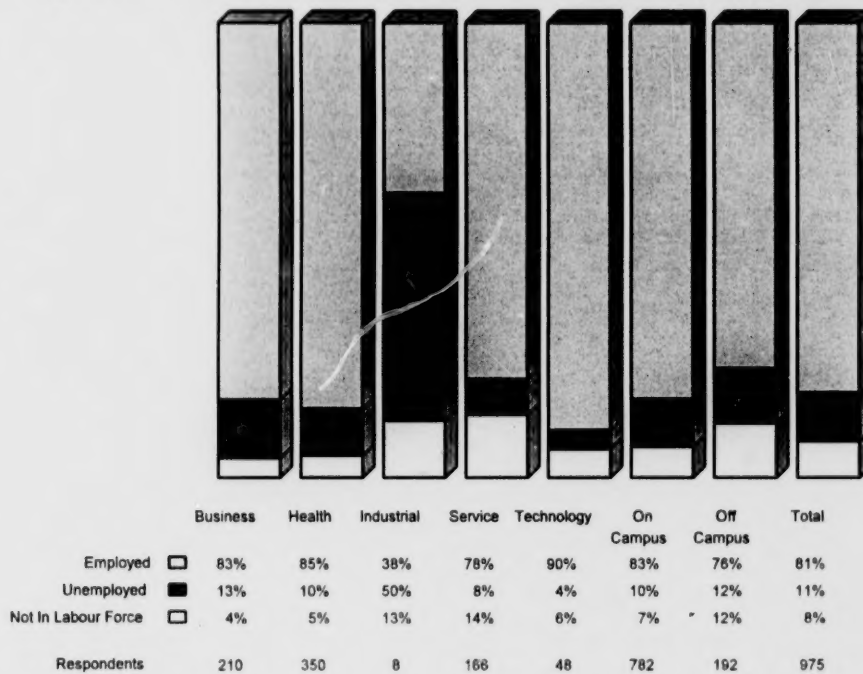

Figure 8 : Labour Force Participation for Female Respondents

Continuing Education

Graduates were asked if they were currently enrolled in any education or training program. 253 (16%) of on campus respondents indicated they were taking further studies (Table 9). 146 (58%) of these 253 said they were attending SIAST either in the same program or another SIAST program. 102 (40%) said they were in a university program or involved in some other post-secondary education/training program.

For off campus respondents, 46 indicated that they were taking further studies. 28 (61%) of these 46 said they were attending SIAST either in the same program or another SIAST program. 16 (35%) said they were in a university program or involved in some other post-secondary education/training program.

Overall, 84% of on campus respondents and 85% of off campus respondents indicated they were not enrolled in any education or training program.

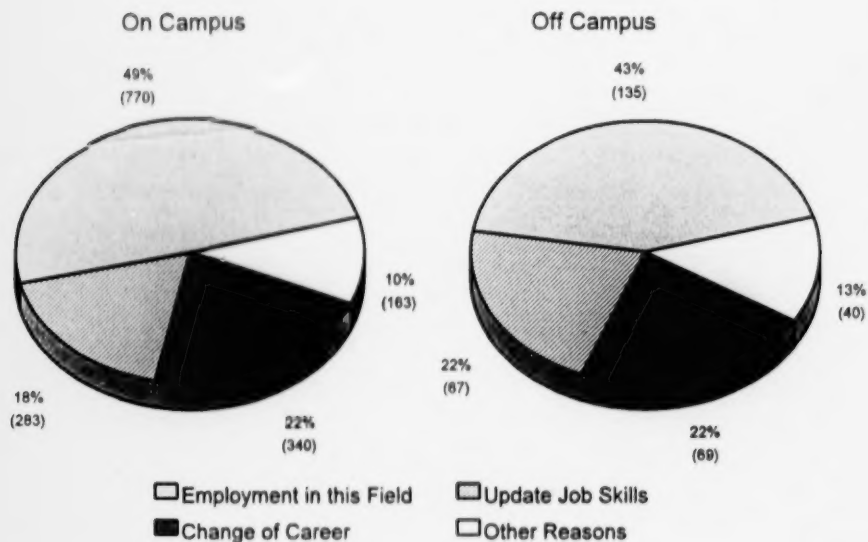

Table 9: Respondents Enroled in an Education/Training Program

	On Campus		Off Campus	
	#	%	#	%
No Response	2	0.1	2	0.6
No	1,303	83.6	263	84.6

University program	47	18.6	3	6.5
Other post-secondary program	59	23.3	13	28.3
No response	5	2.0	2	4.3
Total	1,558		311	

Program Assessment

Figure 9 illustrates the reasons graduates completed their program of study. 50% of on campus respondents and 42% of off campus respondents indicated employment in this field as the reason. 22% of on campus and off campus respondents indicated a change of careers. 18% of on campus and 22% of off campus respondents indicated an update of job skills. 11% of on and 13% of off campus respondents had other reasons for completing their program.

Figure 9 : Reason for Completing Program

Graduates were asked to rate the overall quality of their training program. Table 10 indicates that respondents rated the training programs highly. Just over 98% of respondents rated their program as good to excellent. 36% of off campus respondents rated their program as excellent. Almost 30% of Industrial respondents found the quality of their program excellent.

Table 10: Rating of Overall Program Quality

Program Group	Excellent 5 %	Very Good 4 %	Good 3 %	Poor 2 %	Very Poor 1 %	Mean
Business	18.4	52.2	27.6	1.4	0.3	3.87
Health	26.9	49.9	22.5	0.5	0.2	4.03
Industrial	29.3	46.9	23.2	0.8	0.0	4.04
Service	18.4	48.7	30.3	2.6	0.0	3.83
Technology	16.7	44.4	38.5	0.4	0.0	3.77
On Campus	23.1	48.6	27.2	1.0	0.1	3.93
Off Campus	36.0	43.5	18.5	1.6	0.3	4.13
Total	25.2	47.7	25.8	1.1	0.2	3.97

The mean response, or average rating of the training programs was 3.97. This corresponds between good (3) and very good (4). For on campus program groups Industrial had the highest mean at 4.04 followed closely by Health at 4.03. These means are close to the very good rating. Off campus respondents rated their program quality highest at 4.13, which is higher than very good.

As shown in Table 11, 1,745 graduates responding (94%) indicated that their training program had met with their expectations. The highest satisfaction level of an on campus program group was in Health, where 96% of respondents said the program met their expectations. For off campus respondents, 96% indicated their program had met their expectations.

Table 11: Program Met Expectations

Program Group	Program Met Expectations		Total Respondents
	#	%	#
Business	273	94.5	289
Health	417	96.3	433
Industrial	328	92.4	355
Service	205	89.9	228
Technology	224	93.7	239
On Campus	1,447	93.7	1,544
Off Campus	298	96.1	310
Total	1,745	94.1	1,854

Demographics

Age

The overall average age of survey respondents was 26 years old (Fig 10). Average age of off campus respondents was 29. On campus average age was 26. The lowest average age by on campus program groups was in Business at 24 while the highest was in Service at 27 years of age.

The age distribution for on campus programs varied from less than 20 years old to over 55 years of age with the majority under 25 years of age. 72% of Business respondents were under 25 years of age. 54% from Health, 63% from Industrial, 57% from Service and 58% from Technology were also under 25 years of age.

Gender

Overall 974 graduates responding (52%) were female and 894 (48%) were male (Table 12). The breakdown for on campus respondents was 50% female and 50% male. For off campus respondents the breakdown was 62% female and 38% male. Within on campus program groups, there was a wide variation in the proportion of male and female respondents. For example, 98% of Industrial and 80% of Technology respondents were male, while 80% of Health and 73% of Service respondents were female.

Figure 10 : Age Distribution

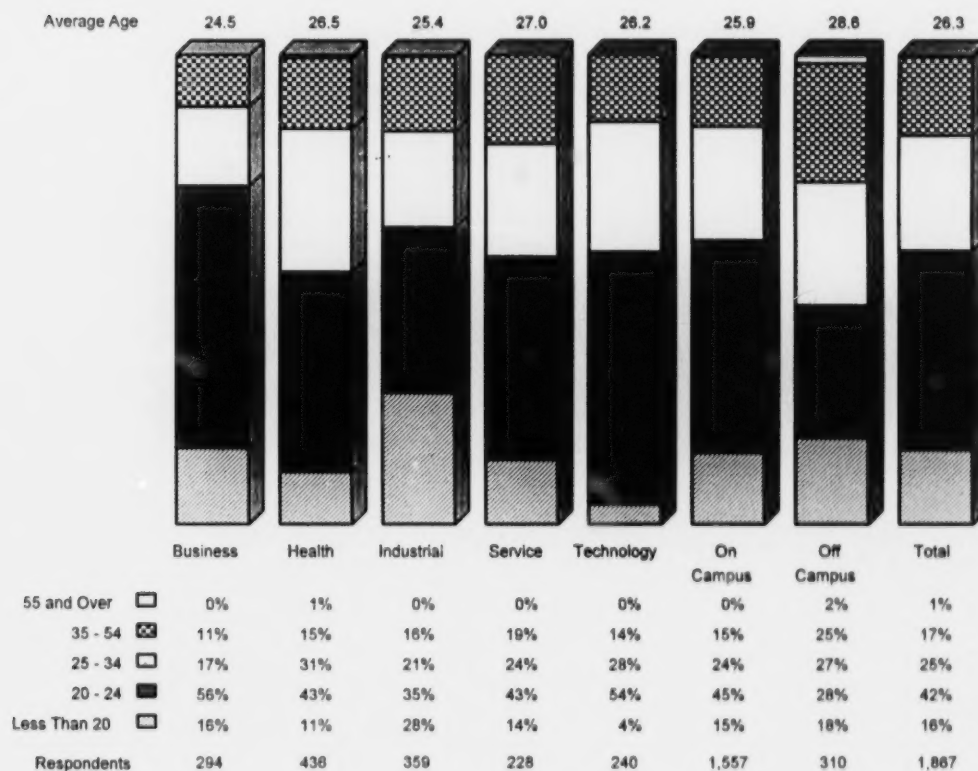

Table 12: Gender Distribution

Program Group	Males		Females		No Response		Total
	#	%	#	%	#	%	#
Business	83	28.2	210	71.4	1	0.3	294
Health	86	19.7	350	80.3	0	0.0	436

Off Campus	119	38.3	192	61.7	0	0.0	311
Total	894	47.8	974	52.1	1	0.1	1,869

Salary

As indicated in Table 13, the average gross monthly salary for all respondents **employed full time in training related** occupations was \$1,805. On campus respondents had an average salary of \$1,833. Off campus respondents' average salary was \$1,626. For on campus program groups, the highest monthly salary was earned by female respondents in Health (\$2,253). For male respondents, the highest monthly salary was in Technology (\$2,133).

Table 13: Average Gross Monthly Salary for Respondents Employed Full Time in Training Related Occupations

Program Group	Male	Female	Overall
Business	\$2,089	\$1,576	\$1,702
Health	\$1,953	\$2,253	\$2,163
Industrial	\$1,619	\$1,213	\$1,615
Service	\$1,566	\$1,365	\$1,508
Technology	\$2,133	\$1,808	\$2,052
On Campus	\$1,833	\$1,832	\$1,833
Off Campus	\$1,659	\$1,599	\$1,626
Total	\$1,815	\$1,794	\$1,805

Designated Groups

Respondents were given the opportunity to identify themselves as members of the following designated groups: persons of Aboriginal ancestry, persons with a chronic disability, persons of a visible minority. The results, shown in Table 13, show that of the 1,869 respondents of the survey, 9% indicated they were of Aboriginal ancestry, 3% indicated they had a chronic disability and 6% considered themselves as a member of a visible minority. On campus respondents consisted of 7% Aboriginal, 3% disabled and 5% visible minority. Off campus respondents had 18% aboriginal, 2% disabled and 10% visible minority.

Within the on campus program groups, Service had the highest percentage of persons of Aboriginal ancestry (15%), the highest percentage of those identifying themselves as having a chronic disability (6%), and the highest percentage of those identifying themselves as a member of a visible minority (10%).

Of the 170 Aboriginal respondents, 69 (41%) indicated they were Status/Treaty Indians. 73 (43%) indicated they were Métis. 22 (13%) indicated they were of some other Aboriginal ancestry. 3 respondents(2%) indicated they were Inuit and 3 respondents (2%) gave no indication.

Table 14: Optional Identification of Designated Groups

Appendix A:

1995 Graduate Employment Survey: Overall Results

	On Campus	Off Campus	Total
Graduates	2,469	537	3,006
Respondents:	1,558	311	1,869

Program Information

1.	What is the name of the program you graduated from?	<i>Refer to Table of Contents for complete listing of programs</i>		
2.	What SIAST Institute or Regional College did you attend?	<i>Refer to Table of Contents for complete listing. Refer to Appendix B for Off Campus listing.</i>		
3.	Which of the following best describes your reason for completing the program?			
	<i>Update of job skills</i>	283	67	350
	<i>Change of career</i>	340	69	409
	<i>Employment in this field</i>	770	135	905
	<i>Other reasons</i>	163	40	203
4.	Did the training program meet your expectations?			
	Yes	1,447	298	1,745
	No	97	12	1090
5.	Can you rate the overall quality of the training you received on the following scale?			
	<i>Excellent</i>	358	111	469
	<i>Very Good</i>	754	134	888
	<i>Good</i>	423	57	480
	<i>Poor</i>	16	5	21
	<i>Very Poor</i>	2	1	3

Employment Information

6.	How many employment opportunities have you applied for since completing your training program?			
	min.	0	0	0
	max.	700	100	700
	mean	20.0	7.8	18.1
	median	6	3	5
7.	How many employment interviews have you had?			
	min.	0	0	0
	max.	50	35	50
	mean	3.1	2.4	3.0
	median	2	2	2
8.	Are you presently employed?			
	Yes	1,284	228	1,512
	No	273	83	356

		On Campus	Off Campus	Total
9.	What is your current primary job title?	Refer to Programs
